

UPDATE #1

POSSIBLE WATER RESTRICTION:

Due to construction delays during the Nonpareil Water Treatment Plant upgrade, we want to give our community members adequate notice that it may become necessary to implement a Level 1 Water Curtailment Plan per the State Water Master. This is due to water rights limitations associated with the Cooper Creek water source.

A Level 1 is a Voluntary Reduction in Water Use and details are available on the City's website @ www.cityofsutherlin.com. We will know more in June and will keep our community members informed as the situation changes.

We appreciate your patience during this construction process.

~ CITY OF SUTHERLIN ~

Notice Dated: May 22, 2023
